

INTRODUCING

 alertDesk™

**Height and Angle Adjustable Desks for Students,  
Adults and Wheelchair Users. Made in the USA.**

## Standup Adjustable Desks

- Accommodate those who benefit by being on their feet while they work or study
- Excellent alternate to seated learning
- Adjustable height and angle work/play surface
- Two sizes: For K-3; For Grades 4-12

### Standing desks may help students be more attentive.

“Preliminary results show 12 percent greater on-task engagement in classrooms with standing desks, which equates to an extra seven minutes per hour of engaged instruction time.”

*Vital Record, Texas A&M University Health Science Center, April 22, 2015*

**Standing desks can provide physical benefits, according to an international professional journal:**

“Standing desks could benefit children’s control of fine motor tasks.” *Gait & Posture*, July 2016, Vol. 48.

Small AD-3

Tall AD-2

## Wheelchair Desks

- Designed for all users including wheelchair-bound and students with low-vision
- Adjustable angle work/play surface
- Available in 2 height adjustment ranges to accommodate most wheelchair users

Tall/Youth AD-5

Pediatric AD-4

## AlertDesk Accessories

Magnetic Rubber Strips included to secure work to slanted surface

Optional Removable Magnetic White Boards for all models attached with industrial Velcro

Optional Book and Work Bag attaches to all models on right or left

2" wide by 1" deep Removable Pencil/Utility Tray

## **The Challenge: Assure Wheelchair-Bound Student Full Inclusion in School**

The student's wheelchair was a complex piece of technology. The Derry Township School District in south central Pennsylvania needed to accommodate it in the least restrictive way so that the fifth grade student could participate in class despite the size of his chair.

## **The Solution: AlertDesk**

*“It is an amazing piece of equipment. Because of all its features, it eliminates the need for other pieces of equipment. He has his own desk and it fits him.”*

**Kelly Stewart, Occupational Therapist**  
Derry Township School District,  
Hershey, Pennsylvania

## **The Challenge: Providing Suitable Work Surfaces for Disabled Students**

In the Multiple Disabilities Support class at Evans Elementary School in Limerick, Pa., part of the Montgomery County (Pa.) Intermediate Unit, AlertDesks™ allow seven wheelchair-bound students to get close to their work.

## **The Solution: AlertDesk**

*“I love them. They work with every kind of wheelchair.”*  
Denielle Brodhead, Special Education Teacher  
Montgomery County (Pa.) Intermediate Unit

A standup AlertDesk is the right learning platform for this student at an Intermediate School in New York City. A Foot Fidget helps him expend excess energy without disrupting classmates.

The AlertDesk model AD-2 is adjustable in height to accommodate students of all sizes in the rapid growth years from middle school through high school, and the work surface angle can be adjusted to suit student needs and preferences.

For this second-grader at an elementary school in New York City's Queens Borough, the AlertDesk takes the place of a conventional classroom desk. The optional book bag keeps books, papers, pens and pencils out of sight, while the white magnetic strip on the work surface – supplied with every AlertDesk – holds work in place on the slanted surface.

An AlertDesk model AD-3 sized to fit students from Kindergarten to third grade is the solution for students like this who find it difficult to spend an entire school day sitting in class.

## AlertDesk Models

AD-3 Standup Desk Short (grades K-3)

AD-2 Standup Desk Tall (Grades 4-12)

AD-4 Pediatric Wheel Chair Desk

AD-5 Standard Wheel Chair Desk

## Why Choose AlertDesk?

Versatile • Durable • Adaptable

- Work/Play Surface features standard plastic laminate top or optional removable magnetic white board surface
- Continuously adjustable height and angle top on all models

Student is shown seated on an AlertSeat™ size small/medium model S/M-38. See [www.alertseat.com](http://www.alertseat.com)

# Models
